Projects

Project Title :- Actitime

Team Size 3-4 project

Description :

ActiTIME is online time tracking software that allows businesses to keep track of their employees, projects, clients, calculate bills and payrolls. Create custom workflows and assign tasks to your team members. Get them to capture their billable and nonbillable hours, define individual or task-specific rates and see how time and money are distributed across your clients and projects. ActiTIME helps to show you and your employees working hours clear.
